

## Mediatec OB Vans

Mediatec's Mobile Production Units are rigid Mercedes Sprinter Van conversions, each identically equipped, capable of taking up to four camera chains and five VTR channels, handle edit, audio and graphics. Each vehicle can seat four operators along two work areas – one for production/edit/graphics and the other for vision/audio/vtr. To maximise use of the space, the operational area is accessed through the side door, with tailboard and equipment access from the rear load-doors.
